

-Limited Edition, Giclee Prints -Price and Size list for Erica Fareio's Paintings-

Giclee prints are commonly found in museums and galleries. This type of printing process maintains all of the tonalities, hues and textures of the original painting better than any other means of reproduction. Giclee prints are a wonderful option for people who love art but don't always want to pay the high prices for the originals. Erica does the entire printing process herself. She believes that the printing process is an artform itself and deserves to be treated as such. A print will only be made if it has a home to go to. Erica will print no more than 50 of each painting in a size that is true or near to true of the original. She is also doing a limited edition series of half size prints. The paintings are reproduced using pigment-based, archival inks. The paper used is 100% cotton, acid-free and beautifully textured. Each one is numbered and hand-embellished with Erica's signature. The prints are double matted on acid-free mat board and are ready to be framed. Most of the prints are matted for a standard size frame, so you will not have to buy a custom frame. Once you decide on a print(s), Erica will be more than happy to discuss matting colors or any other specific size you may have in mind! Please refer back to the website, and "the paintings page" for a bigger image of the paintings, or Erica can e-mail a large jpg to you for a better, more detailed look. The sizes listed below include the matting and are in inches.

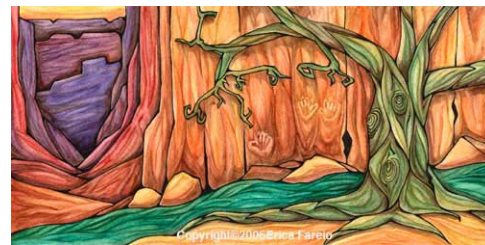

AGAVE
15x15- \$100

THE CRYSTAL BALL
18 x 24 - \$145
